

Class **PROTOCOL STORE: PAST PROTOCOLS**

Systems of Interest:

Update Protocol Store

Update Protocol Store

Trigger

A new study protocol is approved and/or completed.

Primary Scenario

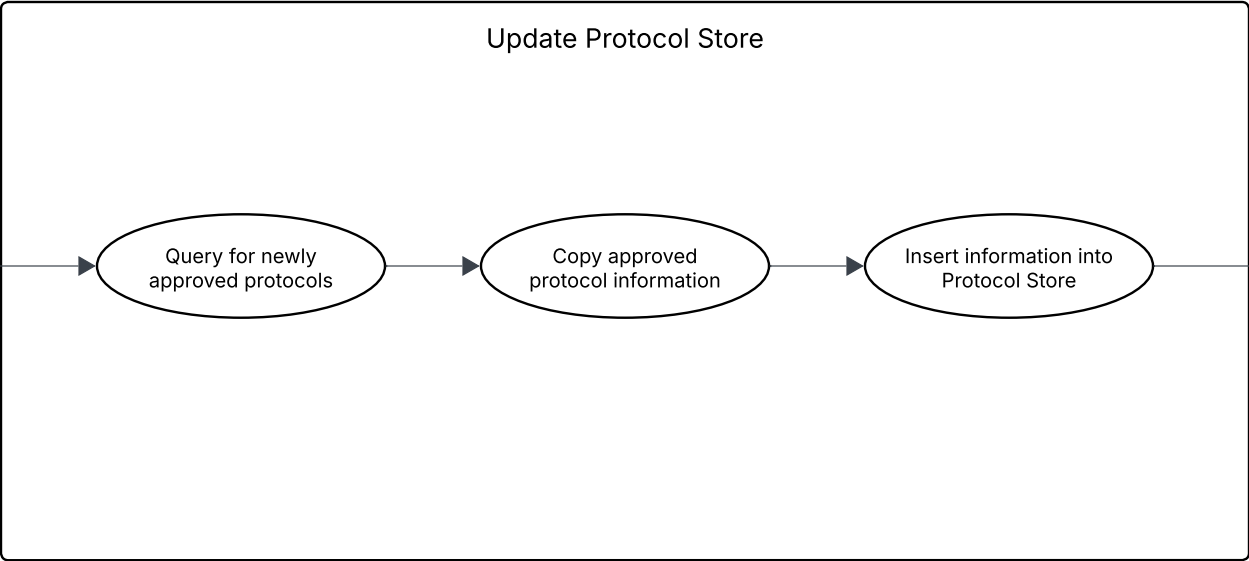

The System queries the incoming USDM Information stream for a new, approved study protocol and copies it into the Protocol Store.

Result

The study protocol is now of a potential source of information for designing future studies. See **STUDY-EXPERIMENTAL CONCEPT:ANALYTICS** and **STUDY DESIGN**.
